### **NEW B&B COTTAGES OFFER AMENITIES AND SOUTHERN HOSPITALITY**

Visitors and Residents of Northern California have a new option when it comes to lodging. Beside Still Waters Farm Bed & Breakfast opened on April 12, offering guests three upscale cottages with amenities found in only the most luxurious inns. Located 8 miles outside of Willits and nestled on over 21 acres, the cottages feature oversized “waterfall” whirlpool tubs, aromatherapy steam-showers, Jeu d’Eau footspas, fireplaces, and heated towel bars. Guests enjoy a full gourmet breakfast with a Southern flair, thanks to owners Earl & Christy Collins’ six years as innkeepers in Atlanta, Georgia. “We’re glad to be welcoming guests again,” says Earl. “I think visitors will be pleasantly surprised with the attention to details, amenities and service. It will really enhance their overall experience.” The Collins’ hope to bring a bit of Southern Hospitality to the area “and we may even occasionally serve grits!” laughs Christy.

“Our years in our Atlanta inn really taught us a lot in regards to guest needs and comfort,” states Christy Collins, a native of Fresno, California. The Collins noted that their rooms with whirlpools and fireplaces were the most sought after, so when designing the cottages for Beside Still Waters Farm, they included every amenity they could think of. “I think the aromatherapy steam-showers will be really popular,” comments Earl. Several special occasion packages are also available.

Willits is located approximately 140 miles North of San Francisco and is home to the Mendocino County Museum, Roots of Motive Locomotive Museum, and Ridgewood Ranch – Home of Seabiscuit.
